***Restriction Requirement***

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-10, drawn to a compound of formula (1) and processes for making a compound of formula (1), classified in, for example, classes/subclasses 540/484; 546/186, 194, 208 and 229; 548/517, 577, 950 and 954; 564/287.
- II. Claims 11-24, drawn to hair dye products, hair dye compositions, hair dye systems and a process for dyeing hair, classified in class 8, subclass 405, 406, 411 and 412.

The inventions are distinct, each from the other because:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the compounds in Group I are not limited to utility in hair dyes. The compounds could be part of printing ink compositions, for example.

Hair dyeing compositions, products, and methods, conversely, do not require compounds of formula (1).

Art Unit: 1624

Further, the inventions in Group II include multiple additional active ingredients, like oxidizers, developer composition, and at least one "primary intermediate," the identities of which are not specified.

The subject matter of Group I requires a separate, non-coextensive search of the prior art than does the subject matter of Group II.

If applicant chooses to elect the invention of Group II, the requirement is further set forth below:

Group II is generic to a plurality of disclosed patentably distinct embodiments. Applicant is required under 35 U.S.C. 121 to elect a single disclosed embodiment for each of the claimed hair dye product, hair dyeing system, hair dyeing composition, and a process for dyeing hair. This will enable the examiner to more easily transfer the application to the proper examining group for cosmetic compositions, as the examiner's Art Unit does not handle cosmetic compositions.
